

QUESTION BANK

UNIT 1: Introduction to E-Learning & Learners

(Topics: E-learning definition, History, LMS, Millennial Learners, Future trends)

1. Define the term "E-Learning."
2. Trace the brief history of E-learning from CD-ROMs to the Cloud.
3. Differentiate between Synchronous and Asynchronous learning with examples.
4. What is Blended Learning? How is it different from pure online learning?
5. List five major benefits of online learning for students.
6. List five major drawbacks or challenges of online learning.
7. What is Mobile Learning (m-learning)?
8. Define Micro-learning and explain its relevance today.
9. What is an LMS? Explain its primary functions.
10. Compare Moodle and Google Classroom as LMS platforms.
11. What is the role of a Learning Content Management System (LCMS)?
12. List four essential technologies required to set up an E-learning ecosystem.
13. What is a Virtual Classroom? Mention one tool used to host it.
14. Explain the concept of Gamification in E-learning.
15. How is Artificial Intelligence (AI) transforming online education?
16. What is Adaptive Learning?
17. Define Virtual Reality (VR) and Augmented Reality (AR) in the context of education.
18. Who are Millennial Learners?
19. Describe the key characteristics of Millennial Learners.
20. Why do Millennials prefer visual content over text-based content?
21. What are 21st Century Skills? List the 4Cs.
22. Explain the importance of Digital Literacy in modern education.
23. What is Self-Paced Learning?
24. Explain the role of Video Conferencing tools (Zoom/Teams) in E-learning.
25. What is a MOOC (Massive Open Online Course)? Give an example.
26. "Online learning requires high self-discipline." Discuss this statement.
27. How does Social Learning work in an online environment?

28. What are the hardware requirements for effective E-learning?
29. Discuss the impact of the COVID-19 pandemic on the adoption of E-learning.
30. What are the future trends of E-learning expected in the next 5 years?

UNIT 2: Instructional Design & E-Content

(Topics: E-Content phases, Standards, ADDIE, ASSURE, Authoring Tools)

1. Define E-Content.
2. What are the different types of E-Content (Text, Audio, Video, Simulation)?
3. Explain the concept of Instructional Design.
4. What is a Learning Object?
5. Explain the concept of RLO (Reusable Learning Object).
6. Why is Re-usability important in E-content development?
7. What is Metadata in the context of E-learning?
8. Expand and explain SCORM.
9. What is AICC compliance?
10. What is xAPI (Tin Can API) and how is it different from SCORM?
11. List the Five Phases of E-Content Development.
12. What happens during the Analysis Phase of content development?
13. What is a Storyboard? Why is it created before development?
14. Explain the ADDIE Model in detail.
15. In the ADDIE model, what is the difference between the Design and Development phases?
15. Why is the Evaluation phase in ADDIE considered cyclical?
16. Expand ASSURE.
17. Explain the "Select Strategies, Technology, Media & Materials" step in ASSURE.
18. Compare the ADDIE and ASSURE models. When would you use each?
19. What are Content Authoring Tools?
20. Differentiate between Desktop-based and Cloud-based authoring tools.
21. Write a short note on Adobe Captivate.
22. Write a short note on Articulate Storyline.
23. What are the features of H5P?

24. How do screen recording tools (like Camtasia) help in E-content creation?
25. What is the role of a Subject Matter Expert (SME) in E-content development?
26. What is Rapid E-Learning?
27. Explain the importance of Standardization in E-content.
28. What is the role of Bloom's Taxonomy in defining learning objectives?
29. Create a sample Storyboard structure for a 2-minute educational video.

UNIT 3: Visual Design & UX

(Topics: Visual Hierarchy, Color Theory, Typography, UX, Wireframing, Graphics)

1. Define Visual Design in the context of digital media.
2. What is Visual Hierarchy? Why is it crucial for learning materials?
3. Explain the Z-Pattern and F-Pattern in reading layouts.
4. What is Typography?
5. Differentiate between Serif and Sans-Serif fonts. Which is better for screens?
6. What is Leading and Kerning in typography?
7. Explain the basics of Color Theory.
8. What is the Color Wheel? Explain Primary, Secondary, and Tertiary colors.
9. Differentiate between Warm and Cool colors and their psychological impact.
10. What is Contrast? How does it affect readability?
11. Define User Experience (UX) Design.
12. What is the difference between UX (User Experience) and UI (User Interface)?
13. List five key Principles of UX Design.
14. What is a Wireframe?
15. Distinguish between Low-Fidelity and High-Fidelity wireframes.
16. What is Prototyping?
17. Name three popular tools used for wireframing (e.g., Figma, Balsamiq).
18. What is Graphic Design?
19. Differentiate between Raster (Bitmap) and Vector graphics.
20. Explain the following file formats: JPEG, PNG, GIF, SVG.
21. Which image format supports transparency?

22. What is Image Resolution? How is it measured (DPI/PPI)?
23. What is the standard resolution for web images vs. print images?
24. Explain the Rule of Thirds in image composition.
25. What is White Space (Negative Space) and why is it important?
26. How does Consistency improve the user experience?
27. What is Accessibility in design (e.g., color blindness considerations)?
28. Explain the concept of Responsive Design.
29. What is a Style Guide?
30. Critically analyze a sample website layout for bad visual design choices.

UNIT 4: Web Tech, CMS, Social Media & Ethics

(Topics: HTML/CSS, CMS, WordPress, SEO, Social Media, Ethics, Copyright)

1. What is HTML? Write the basic structure of an HTML page.
2. What is CSS? How is it linked to HTML?
3. Explain the difference between an ID and a Class in CSS.
4. What is Multimedia Content Creation?
5. List the tools required for Audio Editing (e.g., Audacity).
6. List the tools required for Video Editing (e.g., Premiere Pro, OpenShot).
7. What is a Content Management System (CMS)?
8. Why is WordPress the most popular CMS?
9. Explain the difference between Posts and Pages in WordPress.
10. What are Plugins in WordPress? Give two examples.
11. What is a Theme in a CMS?
12. Define SEO (Search Engine Optimization).
13. Differentiate between On-Page and Off-Page SEO.
14. What are Keywords? How do you choose the right keywords?
15. What is Alt Text and why is it important for SEO and Accessibility?
16. What is Social Media Content Planning?
17. Why is it important to have a Social Media Content Calendar?
18. Which social media platform is best for professional/educational content and why?

19. Explain the 4-1-1 Rule or 80/20 Rule in social media marketing.
20. Define Copyright.
21. What is Intellectual Property (IP)?
22. Explain the concept of "Fair Use."
23. What is Creative Commons (CC)? Explain the different CC licenses.
24. What is Plagiarism in digital content? How can it be avoided?
25. What are the Ethical Considerations when creating digital content?
26. Define Content Evaluation.
27. What is Usability Testing?
28. How can you collect Feedback from learners? (Surveys, Analytics).
29. What is A/B Testing in content marketing?
30. Explain how to analyze website traffic using tools like Google Analytics.
